Chapter Mission Statement

“To provide our chapter members with opportunities for education, resource sharing, advocacy, and professional networking as well as to promote and advance the profession’s ethics, responsibilities, and expectations for the work of our practitioners as a service to our communities.”

— Adopted by the Central Oklahoma Chapter, October 2, 2003

Speaker Biography— David Zink

Mr. Zink is a Senior Manager with the Technology & Security Risk Services practice for Ernst & Young, LLP. He is responsible for designing and implementing the IT Audit and IT Advisory services approach for Ernst & Young, LLP in a wide range of clients in Oklahoma and throughout the Southwest Region. Mr. Zink is also a key resource for security evaluation and implementation projects on a variety of platforms. In the areas of security management and data privacy, he has also performed security infrastructure reviews, network penetration audits and fraud investigations in support of both audit and forensic investigation projects.

Mr. Zink has almost 20 years experience in IT Audit, information security analysis and systems implementation. He has worked in both Public Accounting and Internal Audit management. Mr. Zink has previous Public Accounting Information Technology Audit experience with PricewaterhouseCoopers, LLP and Deloitte & Touche, LLP. His previous Internal Audit experience includes employment at the Hertz Corporation, American Airlines and Integris Health.

Topic Details – ISO and PCI Data Security Standards

Data Privacy has become a common term over the last few years but often means different things to different people. These definitions may depend on the source of the data, the purpose of the data, its completeness and even how it is retained. The PCI standards have recently been updated and have been endorsed by all of the major payment card industry members.

Even if your company does not processes credit card data directly, these standards are driving everything from your company's policies for processing vendor payments, protecting and storing personnel data, and even your latest purchase on eBay or Amazon. Understanding these standards and the recent initiatives related to Data Privacy will help you protect your businesses from the fraud and the legal ramifications of not properly protecting payment data, as well as your own private data.

Upcoming Training Opportunities

Last one for 2008, 8 - 12 Dec in New Orleans — More details at www.isaca.org/trainingweek

President's Message

Dear Members,

As we approach year-end, please be certain to renew your ISACA membership, achieve your CPE goals, and, if you are interested in CGEIT certification, meet new deadline for grandfathering.

All the Chapter Board Members wish you a most enjoyable holiday season filled with good cheer and memorable moments.

Regards,

Lisa Moorer

REMINDERS

Renewal

Ensure your benefits continue throughout 2009 and that your certification(s) remains current Login and Renew Today! (www.isaca.org/renew)

Please note:

For those of us who are in the last year of our three-year Continuing Professional Education (CPE), The CPE policy (www.isaca.org/cisacpepolicy) requires that you earn 120 total hours during your three-year cycle (2006, 2007 and 2008) AND earn a minimum of 20 hours annually.

CGEIT Grandfathering Extension - December 31, 2008

Due to the overwhelming demand for the CGEIT certification, the CGEIT Certification Board has extended the application deadline for certifications under the grandfathering provision to 31 December 2008. Prior to the grandfathering application deadline, ISACA will offer the first CGEIT exam on 13 December 2008. Registration for the June 2009 exam will open in December 2008. CGEIT exams will be offered at the same time and locations as the CISA and CISM certification exams.

2008-2009 Chapter Board
