Chapter Mission Statement

"To provide our chapter members with opportunities for education, resource sharing, advocacy, and professional networking as well as to promote and advance the profession's ethics, responsibilities, and expectations for the work of our practitioners as a service to our communities."

— Adopted by the Central Oklahoma Chapter, October 2, 2003

Speaker Biography— David Losacco

David is a Partner with Stinnett & Associates. David has over 14 years of experience performing control reviews over IT and application process controls and has performed assurance work in various industries including energy, manufacturing, construction, and telecommunications. Throughout his career, David has focused on providing his clients value added services in both business process and information technology related controls. As the IT controls lead for Stinnett & Associates, David is responsible for the information technology control audits performed. Such reviews include IT application controls reviews, business continuity and disaster recovery assessments, IT general controls reviews as well as IT security reviews.

Prior to joining Stinnett, David was a Senior Manager with PricewaterhouseCoopers (“PwC”) and was responsible for operational and systems risk management assurance activity in support of annual financial audits for PwC’s Oklahoma audit clients as well as the Central region’s telecommunication audit clients. At PwC, David focused on the Sarbanes Oxley Act and was one of the 404 Subject Matter Expert leads for the PwC Oklahoma audit practice.

David currently serves as the President of the Tulsa chapter of the Institute of Internal Auditors.

President's Message

Dear Members,

There are several updates I'm passing on to you this issue.

Renewal

Ensure your benefits continue throughout 2009 and that your certification(s) remains current Login and Renew Today! (www.isaca.org/renew) Please note: For those of us who are in the last year of our three-year Continuing Professional Education (CPE), The CPE policy (www.isaca.org/cisacpepolicy) requires

that you earn 120 total hours during your three-year cycle (2006, 2007 and 2008) AND earn a minimum of 20 hours annually.

Grandfathering Extension - CGEIT

Due to the overwhelming demand for the CGEIT certification, the CGEIT Certification Board has extended the application deadline for certifications under the grandfathering provision to 31 December 2008. Prior to the grandfathering application deadline, ISACA will offer the first CGEIT exam on 13 December 2008. Registration for the June 2009 exam will open in December 2008. CGEIT exams will be offered at the same time and locations as the CISA and CISM certification exams.

New Pins

New certification pins have been designed for CISA, CISM and CGEIT credential holders. These pins will be mailed to individuals when they are first certified, along with their congratulatory letter, designation certificate and CPE policy. Current credential holders will receive a new pin along with their new certificate as they complete their current 3-year certification cycle. <note> In the past, ISACA has sent pins in bulk to chapters and all certified constituents were not receiving pins. By sending pins directly to the certification holders, ISACA can better ensure that all CISAs, CISM's and CGEIT's receive a pin.

Regards,

Lisa Moorer

2008-2009 Chapter Board
