### Chapter Mission Statement

“To provide our chapter members with opportunities for education, resource sharing, advocacy, and professional networking as well as to promote and advance the profession's ethics, responsibilities, and expectations for the work of our practitioners as a service to our communities.”

—Adopted by the Central Oklahoma Chapter, October 2, 2003

### President's Message

Dear members:

We're off to a very quick start this year with two planned seminars and a CISA/CISM review in the works. The website has been moved to new hosting and should be fully functional again. I apologize for any difficulties the lack of online registration caused. We've resolved the issues and now have an account directly owned by the chapter, instead of by a specific individual.

ISACA International has really started providing their members with great "included" training opportunities with their new monthly e-Symposium. The last one was quite interesting and informative. They've added a quiz for verification and some other refinements, and I'm looking forward to another good session coming up on 26 September.

Don't forget to register for the seminars! We need that information quickly so we can determine if we have enough demand to fill those classes.

See you all on the 5th of October.

Regards,

Girard Jergensen, CISA, President

The next Central Oklahoma ISACA chapter meeting is scheduled for **November 2, 2006**. Meetings are normally the first Thursday of the month, September through May.

### 2006 CISA and CISM Exam Dates

Registration deadline: 27 September 2006

Exams given worldwide: 9 December 2006

Register online at [www.isaca.org/examreg](http://www.isaca.org/examreg)

### New Membership Info

Any individual joining ISACA between 7 August and 31 December 2006 will pay full 2007 association and chapter dues and receive membership benefits through 31 December 2007.

### Speaker's Bio

Nathan Keltner is a Senior Information Technology Auditor with The Hertz Corporation and has been in the Internal Audit department for 2 1/2 years. Mr. Keltner's responsibilities include planning and executing IT and IT-related process audits, as well as advising on potential control concerns with IT projects in their planning and implementation stages. Previous speaking engagements include presentations on IT Auditing to Management Information Systems majors at the University of Oklahoma.

In 2004, Mr. Keltner received his Bachelor of Business Administration in Management Information Systems from the University of Oklahoma, where he was an active member and Officer in the MIS Student Association. He is currently a member of the Oklahoma City ISACA chapter and has a strong interest in real world Information Technology security topics affecting corporate environments today.

### Free e-Symposium

The next ISACA e-Symposium, titled Security Metrics, will be broadcast live and online 26 September. Local start times are located on the Programme page in the red bar above the speaker's names.

This e-Symposium focuses on using metrics to identify the adequacy of in-place security controls, policies and procedures. ISACA has gathered industry leaders to help you gain a greater understanding of the topic. Discover how to use metrics to facilitate decision making and improve performance and accountability through collection, analysis and reporting of relevant data. Some of the topics include:

- CSFs, KGIs, KPIs: Metrics and indicators of performance for the real world
- Information Security Governance - You Can't Manage What You Can't Measure
- Metrics for Data Protection

Register for this online event free of charge at <http://www.e-symposium.com/members/isaca.php> and click the ISACA e-Symposium 26 Sep 2006 - Security Metrics (Free Registration) box and hit submit.

### Kansas City ISACA Chapter Fall CISA Review Course

The Kansas City ISACA chapter is presenting a Fall CISA review course in preparation for the December 9th CISA exam in the greater Kansas City area starting in October. They will be presenting the review course at the same time at Webster University, in metropolitan Kansas City, and through Web conferencing. This will enable those beyond a comfortable commuting range to still participate.

The review course will be based on ISACA's CISA review materials, including slides provided by ISACA. The registration fee for this course is \$100 (both for on-site and remote) which includes the review hand-out. Additionally, participants are also encouraged to purchase the CISA Review Manual available on ISACA's online bookstore. The 8 or 9 week course is planned to start the week of October 1st. Course day and evening times are currently being arranged.

If you have any interest in either physically attending a review course in the KC metro area or participating remotely, please contact Jerry Wistrand at 816-760-7813 or email at [g.wistrand@att.net](mailto:g.wistrand@att.net).
