Speaker: Tom Speigner, Security Consultant, Watchfire

Date: November 2, 2006

Topic: Top 10 Hack Attacks - Are you vulnerable? (1 CPE)

Bricktown Brewery

1 N Oklahoma, Oklahoma City - 11:30A.M.

Buffet-style lunch

Meat & Cheese Lasagna	Cheese Tortellini Alfredo
Pesto Chicken Breasts	w/Artichoke Hearts
Seasonal Vegetables	Caesar Salad
Garlic Breadsticks	Cookies

RSVP! RSVP! RSVP! RSVP!

Please register online at www.isacacentralok.org by Tuesday, October 31, 2006 at 5pm. Select Event Registration.

Our chapter is growing! Please RSVP!

Cost: Members: \$20; full time students: \$15; non-members: \$25

All no shows will be billed!

If you encounter problems with online registration, please email RSVP to James Barrow at jbarrow@hertz.com

The Chapter will pay the valet parking fee, but you must arrive on time and advise the valet you are attending the ISACA Chapter Meeting.

Event evaluations can be submitted online via:

<http://www.isacacentralok.org/eventeval.htm>

Chapter Mission Statement

“To provide our chapter members with opportunities for education, resource sharing, advocacy, and professional networking as well as to promote and advance the profession's ethics, responsibilities, and expectations for the work of our practitioners as a service to our communities.”

-- Adopted by the Central Oklahoma Chapter, October 2, 2003

President's Message

Dear members:

I would like to thank those who have volunteered to help with the presentations for our chapter, and encourage all of you to keep the suggestions coming.

So far, we've had both of our speakers come from within the chapter, and that speaks well for our membership. Having members help each other is what I think ISACA is all about. We have national level support via the website and the e-Symposia, but no one can better capture what's happening right here, right now than our members can.

The board and I want to have our chapter continue its growth, and we believe the best way to do that is to make it a place where you can find relevant, meaningful information, and establish relationships with others in your profession.

If you are thinking about volunteering, but aren't sure what you can do, we have some upcoming opportunities, and a vacancy on the board. We almost always need speakers, and currently have a vacancy on the board, as the webmaster resigned. If you are interested in helping out, please contact Lacey Cooper (speakers) (vp@isacacentralok.org) or me (board positions).

Regards,
Girard Jergensen, CISA, President

The next Central Oklahoma ISACA chapter meeting is scheduled for **December 7, 2006**. Meetings are normally the first Thursday of the month, September through May.

CISA and CISM Exams

Registration for the 9 December 2006 CISA and CISM exams has now closed. Changes to registration information, such as exam site or language, are free off charge until 12 October. A US \$50 fee is required for all exam registration changes received between 13 and 27 October 2006. No changes will be accepted after 27 October 2006.

The CISM exam in December 2006 will be the last one using the current CISM job practice areas. Candidates should use the 2006 study materials for the December 2006 exam (not those that will soon be available for the 2007 exam).

Speaker's Bio

Join Watchfire's Tom Speigner, Security Consultant, for an informative discussion and demo of the Top 10 web application attacks.

The OWASP Top Ten was created to help organizations and government agencies focus on the most serious web application security vulnerabilities. Adopting a process to monitor for, identify and remediate these "Top Ten" flaws is perhaps the most effective first step towards ensuring the security of your web applications.

Tom came to Watchfire with more than 10 years of information technology experience ranging from systems design and implementation and support, to Internet and network security. As a pre-sales security engineer he is responsible for working with customers to educate them on the need for Web application security and practical ways to protect Web applications from hacking attacks.

Congratulations New CISAs!

Mr. Victor Ford
Mr. Shankar Ravi
Mr. Hampton Wade

Welcome New Members!

Mr. Hampton Wade
Dr. Kameswara Namuduri

Our Chapter has 108 members. Our membership includes 44 CISA's and 10 CISM's with two members having both certifications.

2007 Membership Renewal

2007 membership renewals are available online at www.isaca.org. Membership rates will remain the same for 2007.

Members are encouraged to renew online to help keep ISACA membership as cost-effective as possible. The more members who renew online, the fewer printed invoices ISACA will be mailing worldwide.

As in previous years, all nonmembers who passed the December 2005 and June 2006 CISA or CISM exams have been offered complimentary ISACA membership for the remainder of 2006. A list of those eligible for this promotion is available to chapter presidents and CISA and CISM coordinators. If you questions regarding your eligibility, please contact our Chapter President, Girard Jergensen, (vp@isacacentralok.org) or our CISA and CISM Coordinator, Evon Sallee (salleen@ogc.com).

ISACA e-Symposium

The next ISACA e-Symposium, titled *Effective IT Governance: Balancing Value and Risk*, will be broadcast live and online 31 October 2006. Participants will be able to earn 3 CPE credits for this event.

This e-Symposium will focus on the overall objectives of IT governance activities which are to understand the issues and the strategic importance of IT, to ensure that the enterprise can sustain its operations and to determine if an enterprise can implement the strategies required to extend its activities into the future. We've gathered industry leaders to help gain a greater understanding of the topic. Some of the topics include:

- Emerging IT Governance Issues
- Risk IT and Governance
- Compliance and Governance

The event is scheduled to begin at 11:00am Eastern Time. Register for this online event free of charge at www.isaca.e-symposium.com.

Oklahoma InfraGard Chapter Quarterly Seminar

The Oklahoma InfraGard Chapter will be hosting a training seminar focused on security in Voice Over Internet Protocol (VOIP) and other networks. Keynote speakers include Mr. Steven D. Shirley, Executive Director, Defense Cyber Crime Center and Special Agent Jim Christy, Director, Defense Cyber Crime Institute.

This conference will be held October 31, 2006 (8:30am-3:30pm Central Time) at Oklahoma State University-Tulsa (The Auditorium, 700North Greenwood, Tulsa). This event is open to the public and there is no charge to attend.

Additional details are provided on the Oklahoma InfraGard website at www.infragard.net/chapters/oklahoma/announcements.htm

COBIT Courses Available

To help companies improve governance and comply with Sarbanes-Oxley using the Control Objectives for Information and related Technology (COBIT®) framework, ISACA has launched two e-courses co-developed by ITpreneurs:

- The COBIT Foundation Course™, updated to reflect COBIT® 4.0,
- COBIT for Sarbanes –Oxley Compliance.

These courses are self-paced electronic tutorials available at www.isaca.org/cobitcampus

Applications for CISA and CISM Certification

Applications for CISA and CISM certification continue to arrive at ISACA International Headquarters and processing can take eight weeks once the application is received.

Additionally, there are hundreds of exam passers from the 2001-2005 exams who have not submitted their applications. If you are one of these hundreds and meet all the requirements, please submit your application. If applications are not submitted within five years of the exam date, the score is invalidated.

Further application details are available at

- www.isaca.org/cisaapp
- www.isaca.org/cismapp

New 2006 ISACA conference and educational event dates have been released. For the latest information, please visit www.isaca.org/conferences.

Fraudulent Chinese Web Site

In May, a notice was posted regarding a web site (www.cisaca.org) originating out of China fraudulently claiming to be authorized by ISACA to register candidates for the CISA exam and to collect exam fees through its site. At that time, the site was inactivated; however, it has recently been reactivated. ISACA has also been informed that www.cisaca.com is a related site with similar claims.

Please be advised that neither of these web sites nor their owners are affiliated in any way with or endorsed by ISACA—nor have these web sites or their owners been authorized as registrars for the CISA exam or as distributors of any CISA study materials.

If there are any similar situations occurring in your geographic area, please contact the certification department at International Headquarters immediately. Please direct any individuals who have been adversely impacted by these web sites to contact International Headquarters' certification department (certification@isaca.org) so that their name, who the payment was made to, the amount paid, the exam they had registered for, and the web site where they had registered for the exam can be documented.

Online registration for the CISA and CISM exams can be completed only through the ISACA web site (www.isaca.org/examreg) or via fax/mail to ISACA International Headquarters.

ISACA Research Spotlight

Convergent Security Risks in Physical Security Systems and IT Infrastructures

This research is focused on security risks and management issues associated with commingling security systems and devices, process control systems, and IT environments. These issues need to be identified and addressed by manufacturers, security architects, system administrators, information security staff members and auditors.

Published by The Alliance for Enterprise Security Risk Management (AESRM), an alliance among ASIS International, ISSA and ISACA, the publication is posted for complimentary download at www.isaca.org/downloads.

ISACA Research Update

COBIT® Mapping: Mapping of ISO/IEC 17799:2005 With COBIT® 4.0

ISO/IEC 17799:2005 The Code of Practice for Information Security Management is an international standard based on BS 7799-1/ISO/IEC 17799:2000. It is presented as best practice for implementing information security management. This mapping document contains a detailed mapping of ISO/IEC 17799:2005 with COBIT 4.0. It will be posted as a complimentary download for ISACA members in the fourth quarter of 2006.
